PRESIDENT MCKINLEY and Secretary Alger had a conference over the Miles-Eagan scandal. Both realized that the conduct of Gen. Eagan in using vituperative language towards Gen Miles could not be ignored and some thing will be done in the matter. I' seemed likely that a court of inquiry will be decided on to determine whether Gen. Eagan slandered Gen. Miles and also whether Gen. Miles slandered the commissary department.

Commissary General Eliminates the Objectionable Matter in His Statement to Commission.

COURT-MARTIAL IS DECIDED UPON,

lien. Merritt to Be President of the Court-Action to Be Confined Exclusively to Gen. Eagan's Military Offense for Calling His Superior Officer a Liar Before

Washington, Jan. 17. - Following is the text of the letter sent by Gen. Eagan to the war investigating commission with an amended statement in reply to the charges made by Gen. Miles concerning the beef furnished the army:

Office of Commissary of Subsistence, Washome of commissary of Subsistence, washington, Jan 14—To the commission appointed by the president to investigate the conduct of the war with Spain: Gentlemen: I have the honor to hand you herewith my testimony, which is now resubmitted and revised in accordance with the views expressed by you is your letter to me of January 13. The objectionable features and what is considered irreletionable features and what is considered irreletionable features and what is considered irrele vant matter by you, in which opinion I entirely agree, are eliminated. In this connection I desire to state that there was never a thought or in-tention on my part of any disrespect whatsoever to your commission, but in explanation of the language used by me heretofore. I beg to invite the attention of the commission to the fact that I have been accused practically of feeding the soldiers with poisoned beef which made them sick, "embaimed beef," so-called, that I have furnished meat to the army under the "preferes of experiment." which charge it the "pretense of experiment," which charge in effect, is corruption and worse, because it isopardized the lives of the soldiers sent to the front in tropical climates and who were dependent on such food as was sent them; that these statements have gone to the whole country uncontradicted: that they have oeen published and I have been pilloried in the press of the country as a man who had fed the army on poisoned meat and corruptly so that or about three weeks' time I have kept slicut or the reason that I was debarred, after talking with the honorable secretary of war, from preparing charges because of the immunity granted by the president to witnesses before your commission, notwithstanding the gravity of the accusations; that it is unreasonable to selleve that such monstrous charges could have any other effect than to work upon an honorable nan in such a way as to good him into a species of lesperation, and that it was but natural, when he proper opportunity was given him, to meet and refute the charges, that he should characterize them in harsh language and in terms that are deemed improper, no matter what the provocation. I, therefore, withdraw the language and matter so objectionable and resubor the reason that I was debarred, after talk guage and matter so objectionable and resub mit to you now my sworn statement with the abiding faith that your commission, having all the facts before you, will decide the points at issue justly. Very respectfully.

CHARLES P. EAGAN.

An investigation showed that these collections had never been turned in with the conductors' report. Trainmen on the east end of the Atchison, Topeka & Santa railway believe that the conductors on the west end who have been let out or are to be let out on evidence furnished by a spotter will be reinstated. They have received no assurance of this from the management: on the con trary, the officials are still acting on the spotter's report, but the conduct ors have a letter written by the spotter in which he offered to suppress his report if they would put up \$200 apiece. IT WILL BLAME MANY.

Report of the War Investigating Committee Censures Alger, Miles, Brooke and

Washington, Jan. 17 .- President Mo Kinley will have in his possession the full report of the war commission within the next ten days. It will declare that the primary trouble is due to the lack of proper military organization. It will show that Secretary Alger was weak, and especially in his relation with Maj. Gen. Miles, but it will not find him responsible for the camp "horrors." Maj. Gen. Miles will be criticised for his conduct before and during and since the war. Coming down to the beef controversy, the commission will find that Gen. Miles' charges were unfounded, and that there was absolutely no criminality in any of the contracts made

for supplies for the service. So far as the Santiago campaign is concerned, the commission will report that Gen. Shafter conducted that movement as efficiently as could have been expected under the circum stances. Commanding officers of the transports will also come in for a share of the blame.

Gen. Brooke will be criticised for the conditions which existed at Camp Thomas, and the medical department will be blamed for lack of inspections and failures to carry out proper sanitary regulations. The quartermaster general will be acquitted of charges of high prices paid for animals for the army, and the report will state that he obtained them very cheaply, but he may be criticised for clothing furnished

Present Quarantine Laws Affecting Live Stock Are Alleged to Favor Chicago Stock Yards.

Jefferson City, Mo., Jan. 17 .- There will be held in Jefferson City Wednesday a meeting of much importance to the cattlemen of the southwest, and more particularly to the stock yards interests of Kansas City. At that meeting an effort will be made to formulate pian by which the Chicago stock vards may be deprived of the advantage which they now hold over the various yards in Missouri and Kansas. It is due to the lack of uniformity in the quarantine regulations of the various states that the Chicago yards profit at the expense of others which are nearer to the localities which produce the cattle. If the meeting this week should find a way out of the difficulty, which has been the source of much contention in the last few years, the Kansas City yards will be the greatest
